Human skin color ranges in variety from the darkest brown to the lightest hues. An individual's skin pigmentation is the result of genetics, being the product of both of the individual's biological parents' genetic makeup, and exposure to sun. In evolution, skin pigmentation in human beings evolved by a process of natural selection primarily to regulate the amount of ultraviolet radiation ...

This video resonated with me because: I work with an organization that was accused of systemic racism a year ago. It was a hard thing to hear, but that fact is that it was true: we had an all-white board, and predominantly white participants. We didn't mean to, like one of the people said in the video, we weren't a bunch of evil people trying to exclude people of colour.
