Yuval Noah Harari | Speaker | TED

Seventy thousand years ago, our human ancestors were insignificant animals, just minding their own business in a corner of Africa with all the other animals. But now, few would disagree that humans dominate planet Earth; we've spread to every continent, and our actions determine the fate of other animals (and possibly Earth itself).

Yuval Noah Harari: What explains the rise of humans? | TED Talk

Yuval Noah Harari responds to an account of the artificial intelligence era and argues we are profoundly ill-prepared to deal with future technology. Published: 22 Sep 2017

Yuval Noah Harari — Armchair Expert

— Yuval Noah Harari, *Sapiens* These archaic humans loved, played, formed close friendships and competed for status and power, but so did chimpanzees, baboons, and elephants. There was nothing special about humans.

Yuval Noah Harari: Why We Dominate the Earth - fs.blog

Yuval Noah Harari tells stories about stories. This was the central revelation of *Sapiens*, which began with a gripping account of *Homo Sapiens'* rise to supremacy over various other hominid species (Neanderthals, *Homo Erectus*). The secret of our success, he argued, was fictive language: 'the ability to transmit information about things that ...
